SUMMARY

Driven by a perpetual curiosity and a desire to streamline, I never stop learning about and exploring the most recent developments in technology, health, education, and science. At the moment, I am examining AI technologies and their application in web and mobile app development. Simultaneously, I am dedicated to self-improvement and my own health and consistently work to "optimize my own code base".

PROFESSIONAL EXPERIENCE

Lead Instructor

DevPoint Labs

📅 01/2020 - 04/2023   📍 Salt Lake City, UT

- Developed and delivered a comprehensive web development curriculum, including lectures, workshops, and hands-on coding exercises that covered various topics such as React, Ruby on Rails, APIs, Testing, Product Management, Databases, and more.
- Fostered a positive and inclusive learning environment, encouraging open communication, teamwork, and peer-to-peer support among students.
- Helped manage resources, and schedules for the school to ensure a seamless and organized learning experience for students.

Software Engineer

Evernym

📅 01/2018 - 01/2020   📍 Draper, UT

- Developed and maintained a React Native mobile app for storing and managing digital credentials, ensuring a seamless user experience and robust functionality.
- Redesigned and built an admin-level website for creating and distributing digital credentials, improving usability, and streamlining the credential management process.
- Created mockups, wireframes, and prototypes to communicate design concepts and facilitate discussions among various teams.
- Conducted manual and automated testing of the mobile app and admin website to verify functionality, usability, performance, and compatibility across various platforms and devices.

Software Engineer

Teleperformance

📅 2016 - 2018   📍 Murray, UT

- Led the user interface (UI) redesign efforts for existing applications, focusing on improving usability, aesthetics, and overall user experience.
- Played a significant role in the development of five in-house web applications, collaborating to deliver robust and user-friendly solutions.
- Lead Developer for Teleperformance's first React Native mobile app.

EDUCATION

BS, Human Development

2013: Bachelor of Science, University of Utah

Certificate of Completion

2016: Devpoint Labs

*Minor, Computer Science

2014-2015: *Unofficial Minor, University of Utah

SKILLS

| React | React Native | Node/Express | Ruby/Rails | SQL | API's | Testing | Github | SCRUM |

| UI/UX | Redux | Figma | HTML | JIRA | CSS | Javascript | Design |
